

Connecting Your World

Hosted PBX Solution

Big business communications at a fraction of the cost!

Over 20 FREE PBX features

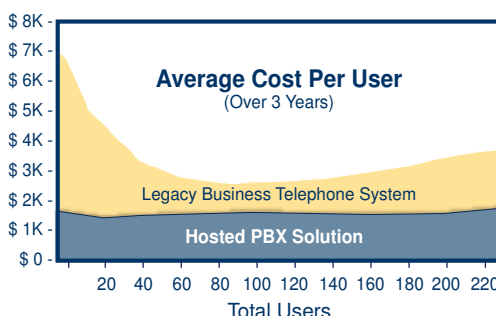

Advantage for your business

Reduce your business communications, Telco and long-distance costs!

Business communications is about creating an advantage for your business, and those who communicate most effectively are better positioned to win.

More than just an alternative phone system, Hosted PBX from Pathway Communications, is a converged communications solution that uses world class technology and infrastructure to deliver advanced telephony features and capabilities for your business. Such features were, previously, available only to big-budget businesses employing very expensive telephone systems.

Hosted PBX offers you the great features and benefits of a converged voice and data solution without the costs and risks associated with implementing an internally-owned communications infrastructure.

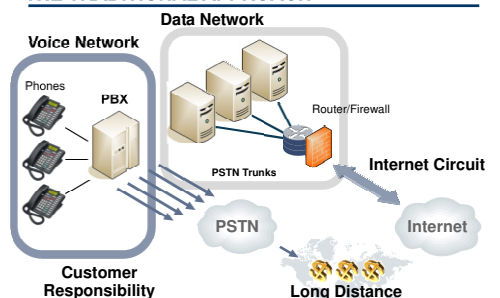

The Hosted PBX Advantage

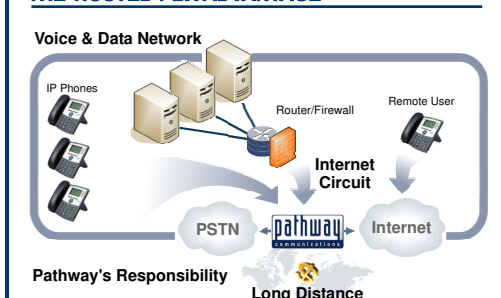

Reliability, flexibility and scalability!

With Hosted PBX, your employees are integrated into a single phone network regardless of where they are located - office, home or on the road -- and all users have access to the same features. Calls are automatically routed to any Hosted PBX phone, with no long distance charges, so your employees can seamlessly make and receive calls wherever they are in the world.

THE TRADITIONAL APPROACH

THE HOSTED PBX ADVANTAGE

Transfer existing phone numbers seamlessly

Pathway conveniently manages the entire process of transferring your current business numbers to Hosted PBX, without any interruption to your operations.

Project a professional image

Companies of every size can take advantage of an integrated solution that improves communications with a professional automated greeting, efficient call handling, minimum wait time and accurate call routing.

Hosted PBX Solution

Hosted PBX vs. Traditional PBX

Dispense with PBX management and maintenance forever!

Based on leading edge VoIP technology, Hosted PBX provides all the advanced functions and features normally found in very large and expensive PBX systems - at a fraction of the cost.

	Hosted PBX	Traditional PBX
Up-Front Costs	Low	High
Support Costs	Included	High
Maintenance Costs	Included	High
Inter-branch Calling Costs	None	High
Route calls to any phone	Yes	No
Supports distributed employees	Yes	No
Advanced features (e.g. voicemail to email)	Yes	No
Scalability	High	Limited
Call capacity	Very High	Limited
Full feature set	Included	Expensive
Hunt Groups	Included	Expensive
Distributed administration	Yes	No

Hosted PBX Equals Efficiency

Simplify management and improve productivity!

Managing your Hosted PBX phone network is simple and easy to do. You can quickly move, add, and change phone locations and settings without the need for specialized staff or IT knowledge. Auto-attendant and operator consoles free up your receptionist, and improve call routing within the office. And all employees have access to dozens of simple, one-touch phone features.

Realized Benefit	Time Savings
✓ Faster Moves/Adds/Changes	1.5 hours per move
✓ IT Staff Not Required For User Support	5.5 hours per week
✓ Reduced Telephone tag for Employees	3.9 hours per week 25 days per year
✓ Improved Remote Office Activity	4.3 hours per week or 28 days per year
✓ Reduced Travel For IT Staff	13 hours per month

Optimize your IT resources

Pathway ensures that from installation and setup to maintenance and support, migrating from your existing phone system to Hosted PBX is seamless. Your IT team can focus on more mission-critical projects that align with business strategy.

Enjoy value-added features at no extra charge

You get over twenty customizable, high-end features such as auto-attendant, a web portal, find me/follow me, call conferencing and enhanced call routing capabilities at no extra charge. Get features that your traditional phone system simply cannot offer.
